Responding to the ramp-up of the air travel healing and the reemerging pilot lack, BAA Training, among the TOP 3 independent air travel training suppliers in Europe, is introducing a distinct worth BAA Training Cadet Program. The brand-new program for future pilots provides training from no to an airline-ready First Officer with a task assurance at one of BAA Training partner airline companies. The pilot training program developed for the European market will assist airline companies make sure prompt recruitment of extremely skilled pilots and fix the primary issue of numerous– discovering a pilot task at an airline company right after the training.

Marijus Ravoitis, CEO of BAA Training, states: “Our ATO is among a couple of in Europe with a whole training facilities, from Ab Initio to Type Rating, with flight academy and several simulator training centres. It makes it possible for us to assist in the recruitment of pilots for a variety of partner airline companies that aim to satisfy their growing personnel capability requirements. We intend to develop a competitive benefit for our partner airline companies and present them the very best potential pilots We have a lot of experience preparing pilots for popular operators, such as Turkish Airlines, WizzAir, LOT Polish Airlines, SmartLynx Airlines, Avion Express and others”.

The exclusivity of the **BAA Training Cadet Program** depends on passing the candidatedship of high-performing trainees to a swimming pool of several airline companies with existing task openings simultaneously rather of a predefined one. The program that can be finished in Lithuania or Spain (or both) includes ATPL Integrated, Type Rating, Base Training and work as an airline company pilot within 6 months after getting a pilot licence.

Aiming to optimize the recruitment success rate of our trainee pilots and offer them with advanced training, we will embed VR innovation into the curriculum, designate an individual profession coach to each trainee, commit a state-of-art Airbus and Boeing household ful flight simulators in BAA Training simulator training centres in Lithuania and Spain.
