

Blubrry Announces New Advanced Hosting Plan Changes

Next week, we'll be updating the storage limitations of all

Advanced Hosting strategies. In a continued effort to supply extra worth to our offerings, we chose to benefit our sophisticated users with more storage general.

This indicates we will be ceasing our no-fault-overages allowances. Effective Tuesday, March 15, 2022, the advanced users will have a greater regularmonthly quota readilyavailable, and requirement users a rigorous 100MB allowance. This does not mean that users cannot reach out to the assistance group and demand a little one-time bump when they have a bigger than anticipated or an extra episode that month.

If you're not familiar with our prepares, our Advanced Hosting strategies not just deal more storage however likewise consistof our Advanced Statistics and domain mapping. You can checkout more about those here.

The brand-new storage alternatives will be practical to any podcaster who produces a video podcast or is focused on exceptionally excellent audio quality. Based that, you might boost your encoding rate with the brand-new storage limitations. Our brand-new sophisticated strategies deal a minimum of 6 hours of material at requirement encoding rates each month.

Hosting Plan Charges

\$20 – 250MB → **400MB**

\$40 – 400MB → **800MB**

\$80 – 1,000MB → **1,600MB**

“Additional storage permits a podcaster more versatility with their schedule and episode length. This bump assists with both quality and amount,” stated CEO Todd Cochrane. “We haveactually made many statements over the past 6 months and will continue to make improvements on our site and tools for podcasters development in 2022.”
