In the age of growing tech awareness and digital penetration, online material has acquired amazing appeal amongst the new-age social media users and influencers. As more individuals are engaging online with their preferred social media influencers, the need for imaginative material is escalating. However, numerous developers are still unaware about how to generate income from their material regardless of being effective in material development and fan generation.

Looking at the restricted material moneymaking alternatives readily available in the market, business owner Abdalla Khafagy developed a material moneymaking and circulation platform Lewk to back the modern-day developer economy and bridge the space for social media. He was signed up with by co-founders Diego Gonzalez (Chief Growth Officer), Aigars Veiksins (Chief Information Officer) and Karol Stanczak (Chief Operating Officer) who included worth to the organization with their experience in the crypto area and influencer marketing.

Handout

Abdalla began his journey in the marketing and crypto area veryfirst as a Head of Community and lateron as Global Director of Community at Crypto.com where he got first-hand experience in service growth and structure worldwide neighborhoods. He likewise has the experience of serving as Operations Manager for MENA, at TikTik, where he had the possibility to link with Celebrities, Micro & Macro Influencers and saw from extremely close their battle for producing earnings through material. Even previously the ideation of Lewk, he was able to develop a neighborhood of over 100k active fans on his social media which made him understand the challenges of influencers and publishers alike. So, he signedupwith hands with his co-founders to resolve this concern of material moneymaking through his ingenious platform Lewk.

Each of Lewk's co-founders is a social media and blockchain veteran who dealt with Influencer Marketing for market giants like Binance, TikTok, or Crypto.com. Riding on their previous experiences and specialist insights, they developed an actionable roadmap to increase the material economy and renew the influencer marketing market. Lewk is a blockchain-powered platform that allows you to work with your existing social media platform and develop moneymaking chances. With Lewk, influencers and material developers will be able to upload their videos and start earning from them. The platform will likewise empower developers to mint their video concepts as NFTs to resell them to other developers and make royalties. Content developers will get paid for up to 10 million views their material gets on Tiktok or Twitter over a 7 day duration. Short videos are going to be the veryfirst type of supported material.

Talking about Lewk, Founder Abdalla Khafagy states, "Lewk brings all the similar developers lookingfor for moneymaking under one umbrella. With a special lineup of includes we are working on, material

moneymaking, forming patterns and cooperation inbetween developers will be simpler and muchfaster than ever.” “Additionally, Lewk likewise allows developers to get contributions from their fans and fans with leastexpensive costs in the market thanks to blockchain innovation, which is likewise something that makes us stand out” included Co-founder and Chief Growth Officer, Diego Gonzalez.

Lewk likewise offers brands and publishers with a special chance to expose their marketing project to developers on a worldwide scale. “Using Lewk, brandnames will be able to conserve a lot of cash and time in finding the right material developer or influencer for support their projects. Our Publishers Marketplace links the dots inbetween the developers and publishers,” stated Co-founder and Chief Information Officer, Aigars Veiksins.

The developer economy is moving promptly which is why the developers and brandnames should keep up with the patterns to keep on amusing the audiences. “Lewk offers fans simple gainaccessto to their preferred content, surfing by classification and finding comparable types of material made by similar developers. They can now link with their preferred developers and assistance them with contributions,” Co-founder and Chief Operating Officer, Karol Stanczak included.

Lewk’s ingenious platform is an simple method to bring material from all social media platforms together in one location to construct an appealing portfolio and display the finest pieces of material in front of the publishers and users. As the barriers to material development are getting lower with technological development, Lewk is paving the method for transforming material circulation and moneymaking for material developers and influencers.

Note: Investment in cryptocurrency or digital properties is topic to danger and readers oughtto do their own due diligence. Entrepreneur Media does not back any such financialinvestment.
