Expert Insights into Aircraft Connectivity
[LISTEN NOW](#)

Cirrus Aircraft's Ivy McIver and Seneca Giese are the 2 visitors on this episode.

On this episode of the Connected Aviation Intelligence Podcast, we're signed up with by 2 visitors, consisting of Ivy McIver, a pilot and director of the SR Product Line at Cirrus Aircraft and the business's director of service advancement, Seneca Giese.

Two years earlier, Cirrus Aircraft launched its brand-new Cirrus IQ app, offering SR20, SR22, and

SR22 T pilots and maintainers the capability to from another location examine the status and efficiency of systems and parts on their airplane. McIver and Giese discuss how Cirrus IQ works and what brand-new functions they're establishing and contributing to it.
