Beyond the brand-new Pokemon, the trailer likewise used a more detailed take a look at the video games' setting, which we now understand is called the Paldea area. This is the very first completely open-world background in series history. Gamers will have the ability to easily check out Paldea while riding atop Koraidon or Miraidon, the famous Pokemon that grace Scarlet and Violet's covers.

Both Koraidon and Miraidon will have the ability to change so they can cross all sort of surface, consisting of swimming throughout stretches of water and sliding through the air. This adaptability will be available in helpful, as the Paldea area is large and geographically varied.

Finally, the trailer provided us our very first take a look at Scarlet and Violet's signature brand-new fight mechanic: Terastallizing. Comparable to Mega Evolution and Dynamaxing, this lets your Pokemon go through a momentary improvement throughout fight, in this case offering your Pokemon a jewel-like body.

Every Pokemon discovered in the Paldea area can Terastallizing, and each has a Tera type that it will end up being when it goes through the improvement. The majority of Pokemon's Tera types will match their basic ones, however some have a various Tera type. While Eevee's Tera type is normally typical, it's

possible to capture an Eevee whose Tera type is flying or yard.
