The Keys To Success According To Trinh Nguyen

As we spoke, Trinh shared some advice on how she sets her mind for success each day. These tips aren’t difficult, but she says they’re the keys to her success!

Get Moving

Trinh Nguyen says, “One thing I do every day when I wake up is immediately getting out of bed, turning on some powerful music, and doing some exercise that makes me sweat. I love dancing, aerobics, or jumping around to get my blood moving. So if you start the day off with a bit of sweat, that’s a win that helps put your mind in the right place!”

Work Hard

Everyone knows you have to work hard to be successful, but Trinh realized after a few months of working as a nail tech that customers keep coming back, not just because of the pretty nails, but the

relationship she attempts to create with each customer. “If you genuinely care about serving your customers and keep your focus on doing what’s best for them, it’s easy to create a loyal customer base who loves you. You can’t do this by trying to manipulate people, or they will find out immediately. You have to love people truly. The money follows.

This doesn’t mean I don’t put in the hours. I worked seven days per week, 10 hours per day, for five years. Recently, I started taking 1-day per week off to clear my mind, center my thoughts, and spend some time with my guy. When I started taking a day off, it was easier to keep a positive attitude, and surprisingly, my monthly income increased again!”

Mindset / Attitude
